DREAM TURNING REALITY

Know more about the dream project of technical plant by KREPL.

STORE OF THE MONTH - MAKSI

Know more about Maksi teams success.

MOTHER OF ALL CULTURE-AGRICULTURE

Know all about organic and sustainable farming.

DREAM TURNING REALITY

After sustained, passionate & relentless attempts to lay down the dream project of technical plant, the Krishi Rasayan export pvt ltd under the leadership of Mr Rajesh Kr. Agarwal along with high spirit beaming team members inaugurated on 3rd September, 2021, the state of the art multi stream production site with precision & top class equipments for pesticides technical plant which has been the mark of commitment to safety and environment friendly ZLD Plant at Panoli, in Indian state of Gujarat, closure to multiple sea ports with focus on high value molecules and very low LD value.

The dream plant came true to existence within a neck breaking speed & time period of 14 months during the 2 severe COVID waves in India and have been able to build one of the best crop protection chemical plant in India with all top class equipments for gas based process, utility from the best in the industry, with high capacity for Utility like Brine & CHILLER with 150TR x2 & 100X2 respectively, MEE with 120 KLPD, RO HP 100 KLD & RO PT 300 KLD. Fully equipped QC, & R&D center headed & supported by the young vibrant team churning out multiple molecules on record time, fully complying with environment norms and spending huge investments towards culture of effluents for the best ZLD plant at Panoli.

This plant spread in 40000sqmt land area, which will be catering about 13000 mts PA of agro chemical AI's & intermediates comprising of Herbicides like Metribuzin, clodinothol propargyl & several in pipeline, fungicides, Tebuconazole, Propiconazole, Metalaxyl, & others, insecticides; Proflinophos, Thiomethoxam, & several others & intermediates with back ward integration and assuring to provide one of the very competitive products & services towards Indian agricultural farmers & focusing on International markets with best of the molecules standards as per FAO standards.

The entire team under same leadership has again embarked on to back to back multiple projects based on the success derived with the first work accomplished and aspiring to have larger market reach in the days to come.

DREAM OF HAVING A TECHNICAL PLANT

Dream of having a technical plant has been fulfilled today due to the untiring efforts made up all the Krishaj team members.

It had been a great team effort done by all in setting up this state of art technical plant as per the required standards. Meeting all govt norms rules and regulations during the toughest period we have ever faced due to covid. Despite all the odds our team has worked day and night to their full potential to make our dream into reality.

In recognition of their efforts we would like to special Mention a few names!

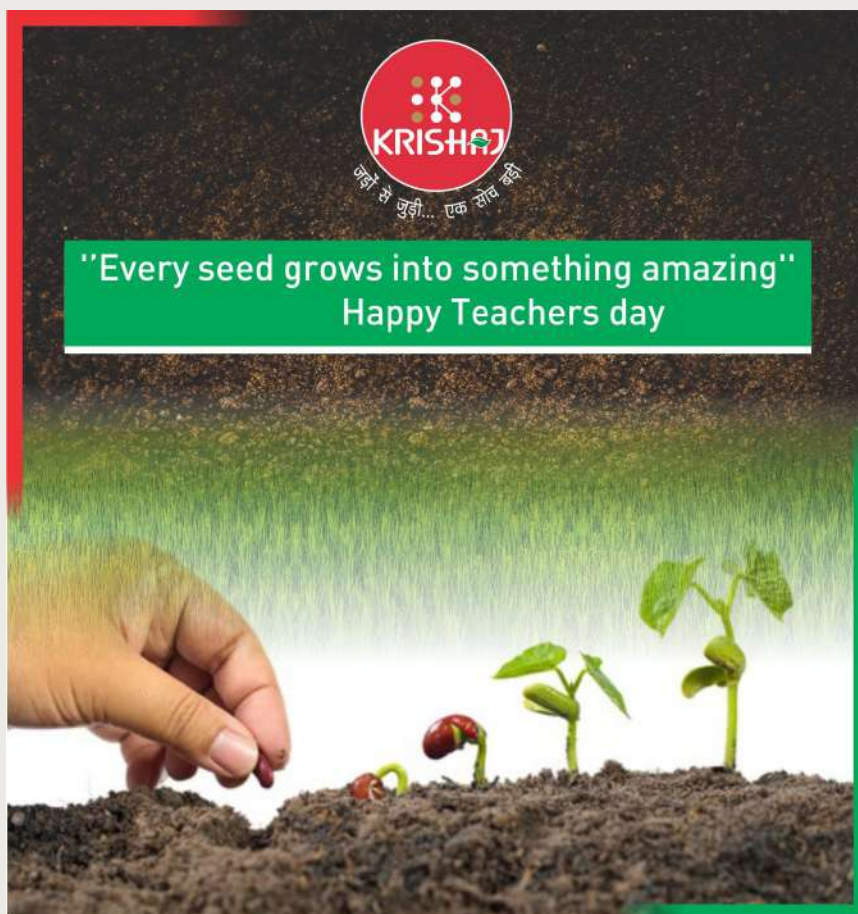

Mr. G. Raghavendra Rao	In Appreciation of Outstanding dedication and exemplary contributions in terms of Conceptualisation and picking up the right team members for the execution of the project.
Mr. Khush Pal	In Appreciation of Outstanding dedication and exemplary contributions in terms of Engineering Expertise towards building Technical Plant, Panoli.
Mr. Sher Singh	In Appreciation of Outstanding dedication and exemplary contributions in terms of Production Supervision towards building Technical Plant, Panoli.
Mr. Jayesh D Patel	In Appreciation of Outstanding dedication and exemplary contributions in Production Efficiency Implementation towards building Technical Plant, Panoli.
Mr. Kv Vishwanathan	In Appreciation of Outstanding dedication and exemplary contribution in conceptualization, co-ordination and guidance towards building Technical Plant, Panoli.
Mr. Deepak Sharma	In Appreciation of Outstanding dedication and exemplary contributions in terms of Process and Research & Development towards building Technical Plant, Panoli.
Mr. Amaresh Kumar Singh	In Appreciation of Outstanding dedication and exemplary contributions in terms of safety guidelines towards building Technical Plant, Panoli.
Mr. Basant Mishra	In Appreciation of Outstanding dedication and exemplary contributions in terms of Purchase Support and Stores Rearranging towards building Technical Plant, Panoli.
Mr. Patil Anil P	In Appreciation of Outstanding dedication and exemplary contributions in terms of Purchase Support towards building Technical Plant, Panoli.
Mr. Rakesh Dahyabhai Patel	In Appreciation of Outstanding dedication and exemplary contributions in terms of Stores Rearranging towards building Technical Plant, Panoli.
Mr. Digvijay More	In Appreciation of Outstanding dedication and exemplary contributions in terms of Civil work towards building Technical Plant, Panoli.
Mr. Ashish Laddha	In Appreciation of Outstanding dedication and exemplary contributions in terms of Accounts handling towards building Technical Plant, Panoli.

DREAM OF HAVING A TECHNICAL PLANT

HAPPY TEACHER'S DAY

SPEAK UP-TAKING A BIG LEAP TOWARDS TRANSPARENCY!

Last year KREPL introduced Speak Up initiative for all its employees. This initiative was rolled out with a vision to build along a culture of transparency and parity across all levels and departments in the organization. The requests received through this platform goes through 3 levels of inter-mediation starting from the dedicated 3rd party team, followed by concerned department and finally to the senior management. Though received hesitatingly in beginning by the employees, this initiative has gained momentum in past 6 months with more than 10 grievances received and successfully addressed. Mr. Rajesh Agarwal, Jt. Managing Director of KREPL feels excited about this initiative and says "As an organization, we are steadily trying to build a culture where each and every employee feels respected and delighted while being associated with us; initiatives like Speak Up are milestones towards achieving our vision". KREPL would like to appreciate each and everyone in the organization who showed a brave face and came up with their grievances and suggestions through this platform.

Speak Up...We are listening...

THE MOTHER OF ALL CULTURE: AGRICULTURE

MOTHER CULTURE : AGRICULTURE

Agriculture is the cultivation of land, whether by the traditional method or by the Modern technology. Cultivation of crop is not up to the production of crops, but also fulfill the needs of animals also by providing them fodder and pastoral farming. The agriculture is directly influenced by its physical environmental conditions (temperature, precipitation, soil, humidity etc.) and also by its socio cultural MILIEU (land tenancy, size of holding, technology, workforce, family requirements, irrigation, power, roads, marketing, aspirations of the growers, etc.) this text is to offer you a concise account of the overall land-use, cropping pattern, crops concentration, crops combinations, and the agricultural operations being administered within the different agro-climatic regions. Agriculture is that the mainstay of the people because it provides employment, directly or indirectly, to about 70 percent of the workforce.

Land is, however, limited and thus its judicious utilization is important to satisfy the growing need of the tremendously increasing population and for the sustainability of soils, ecosystems, and environment. Agriculture may be a broad term and contains many fields within, like Horticulture, farming, and Sericulture. Someone has rightly said that agriculture is that the mother of all cultures. Without agriculture, achievement of excellent economic process is nearly impossible. It's the backbone of secondary and tertiary sectors of the economy. In 1966

there was tremendous increase within the production of cereals, mainly rice and wheat. It had been possible thanks to the revolution that came from the efforts of Dr Norman E Borlaug and Dr M S Swami Nathan. Due to the increasing population and limited land availability, there's now the necessity of an Evergreen Revolution.

At present, contribution of agriculture to national GDP and state GDP is 17% and 16.05% respectively. We cannot live without food and its agriculture which provides us food to eat and live. But the products produced from agriculture function raw materials for industries also. People working in such industries also are thus hooked in to agriculture. a number of the main crops and products from agricultural practices are rice, maize, wheat, pulses, cotton, sugarcane, jute, tobacco, vegetables, fruits, and lots of more.

In agriculture organic and sustainable farming has also played an important role, here is also great scope for organic farming in vegetable production. We will

produce vegetables by organic means without using chemical fertilizers and pesticides. This will be done by use of organic manures like FYM and vermicompost. Organically produced vegetables are beneficial for health. It worth mentioning here that organic manures are easily available and may be produced reception at low cost. Except that the production of vegetables and fruits can be improved by using many dwarf and genetically modified plants. Many farmers are also use greenhouses for the off season crops production and maintain the quality of crops, but in India people related to agriculture are moving to other professions. Land conversion practices are common and agricultural land is reducing day by day. The profitability of agriculture in India is on the decline and this is often reducing the contribution of agriculture to the GDP year after year. I might wish to say that folks must involve themselves in agricultural practices to sustain both their family also because the society's needs. Land conversion practices must be avoided and laws must be framed to limit them.

**Let us support farmers.
Allow us to promote agriculture.**

STORE OF THE MONTH

MAKSI

“Our wholehearted congratulations to “Maksi” store team for the best performance in month of August’21 they have topped (Pan India) as per overall score criteria. To reach this position Maksi team have worked hard on various points, out of which the 3 main strategies were. Firstly, Maksi team have focused on field work, they have conducted various morning meetings, field visits and 1 to 1 meetings which helps them to convert more farmers and bring sales. Secondly, they have a very strong tell-calling connect with old customers, continuously they were in touch with them and resolved their problems. Thirdly, agri doc Mr. Shailender Shukla have focused on Unnat kisan farmers, he has explained the Unnat kisan scheme benefits to farmers. Which helps them to convert big farmers and collects high value orders from those farmers. Furthermore, Maksi team have organised several night/evening meetings and display canopy at village level. With the proper execution of all these strategies, Maksi team have succeeded to achieve this position.

SUCCESS STORY OF FLICK SUPER BY PRADIP JHA

Flick super was introduced in Dec'17 in the Gujarat market but at an initial stage, it did not get a very good response from the market. During the period of Dec'17 to March'21, Flick Super had not been identified as a big brand name amongst the farmers. But nowadays, the situation has totally changed, Flick Super has been established as a "Brand name" in Gujarat market. Brand which is accredited by farmers of Gujarat. As we all know that branding does not happen overnight. Building a brand is definitely a process and requires a strategy. These strategies has been executed by our sales team of KREPL-Gujarat under leadership of Mr. Pradip Jha. For Flick Super, team has targeted onion crop as there focus crop. Onion covers 30,000 hectares of acreages in Gujarat; the sowing month is July/August and transplanting month is August/September. After transplanting month of Aug, team observed huge damage in onion crop by virus & blight. Team Gujarat conducted 100 spot demonstrations of Flick Super at different fields of Rajkot, Gondal and near by markets of Dhoraji in the month of August. The initial stage was very bad for onion crop due to heavy attack of virus and wilt, Farmers have used many fungicides but they didn't get good results from it; whereas result of Flick Super of our 100 spot demonstrations gave desired results. Team has decided to plan and start field days of these demonstrations. Team have already arranged 50 field days and more than 500 plus farmers checked and analysed the effects of the treated crop. After farmer visits, we also arranged visit of our 100 retailers on these treated fields/plots of onion.

SEED RICKSHAW CAMPAIGN AT UP-SANKALP BY RAMKISHAN RAJPUT

You are very happy to know that an E-rickshaw campaign organized for UP Sankalp retail store in seed category from Tuesday (28 sept-2021) continued for 5 days under the guidance of Mr Manish Jain-state head and category head-seed Mr RK Rajput with supervision of Mr Lakshya Garg with special guidance from Dr RD Singh sir.

In this campaign we decorate e-rickshaw with flex banner and empowered with literature and loudspeaker. In e-rickshaw campaign our store team provide information about available vegetable seed in our stores i.e. Toria seed, Mustard seed, Pea seed from reputed companies, very good response getting from farmer side also.

We have covered all UP Sankalp retail stores like Kaptanganj ,Pipiganj, Pharenda, Ghughli, Kachwa bazar.

PESTICIDES APPLICATION ON SOYBEAN CROP THROUGH DRONE TECHNOLOGY- FIRST TIME IN THE MP STATE

BY RUBY

In MP, First time, demonstration on use of Drone has been conducted for Pesticides spray under the technical Committee of University to recommendation for use in the field by the Central & State Govt approved agencies under the supervision of District KVKs

Drone technology helps to use of Pesticides in the different Crops to avoid harmful effect of pesticides on human being, right Use & right dosage of Pesticides in the fields for control of Weeds, Insects, disease at minimal cost.

Drones can help farmers to optimize the use of inputs (seed, fertilizers, water), to react more quickly to threats (weeds, pests, fungi), to save time crop scouting (validate treatment/actions taken), to improve variable-rate prescriptions in real time and estimate yield from a field

In Drone technology, formulation & Suspension are important for better efficacy and result of product

Drone technology demonstration in MP has been conducted under supervision of Dean- College of Agriculture – Indore, Director of Research – Rajmata Vijaya Rajeey Sciendia K V V _ Gwalior & many others scientists of different KVK , progressive farmers and Team members Mr. Surender Sharma, Mr Manoj Sindhe and Mr. Harish Anjana from Krishi Rasayan export Pvt ltd . Product for demonstration of drone technology used for spray are Kristar Gold, Flick Super, Kazuki gold.

Avoid Touching Face

MR. IRFAN MALIK

Mr. Irfan Malik joined KREPL in April 2021 as Regulatory Affairs-Bio-efficacy expert based at Delhi Head office.

He has done M.sc in Agriculture from Babasaheb Bhimrao Ambedkar University Lucknow in the year 2008, He brings with him 12 years of experience in the pesticide industries like Dhanuka Agritech Ltd., Crystal Crop protection, Willowood Crop Science Ltd. and Mahamaya Life Sciences Pvt. Ltd.

Mr. Malik writes about his experience with KREPL as he feels to be the part of the family from his very first day and feels motivated and excited as the organization believes in ensuring that accurate information is distributing in real time basis.

Outside work Mr. Malik is supported by his wife and two daughters.

We wish him a successful & pleasant tenure at KREPL.

Mr. Ram Krishan Rajput joined ALSC in July 2021 as Category Manager (Seed) .

He has completed M.sc(AG)Agronomy from Jawaharlal Nehru Krishi Vishwavidyalaya Jabalpur And brings with him rich experience of 20 years and has worked with companies like Mahyco Seeds and Crystal crop protection ltd. Mr. Rajput feels very excited to work with ALSC and finds the organisation very corporative and disciplined.

Outside work Mr. Rajput is supported by wife and two sons.

We wish him all the very best for his journey with the organisation.

MR. RAM KRISHAN RAJPUT

SPRAY MEN MEETING – TAMIL NADU

“Safety is foremost Goal and it is best tool always “

We, As a Krishaj family always believe and ensure the safety and protection of farmers & spray men from hazardous effect of pesticide. To showcase this concern we had conducted Spray Men Meeting in Tamil Nadu on behalf of Krishaj family and Agro Life Science Corporation Team. We had 4 meetings placed at Sri Villiputhur, Madathukulam, Paparapatti and Panruti which are spread across Tamil Nadu. 300+ spray men participated in this programme and learned about Safety usage of Agrochemicals and application methods. On behalf of Krishaj Family we had provided safety kit to all the participants. Official bearers from State Agricultural Department and KVK also participated as special guests and encouraged our efforts on the right concern of the domain. The participants were really happy and learned about safety usage of pesticide and application. Also they engrossed our products Joy Super, Super Focus and Agro Power Energy. We hope these meetings will help us educate the end users correct means of application.

TEAM SPOTLIGHT

Ms. Shivani Pawar joined ALSC in July 2021 as Manager HR at the Head office. Shivani is a qualified MBA(HR) from Swami Vivekanand Subharti University and brings with her 11+ years of experience in handling varied HR functions. In the past she has been associated with various Multi-National Companies like JM Baxi group, Chemtore Corporation and Agrinos. Shivani believes that she carries ample of scope to contributing to the existing HR eco system and to learn from established fabric.

Outside work Shivani is supported by two daughters.

We wish her a successful journey at the organisation.

SHIVANI PANWAR

Wear your mask so it covers you entire nose all the way down to your chin. Tighten the loops or ties so that there are no gaps and the mask fits snugly on your face.

When in a high risk zone, use the telephone or zoom calls to contact your colleagues

Do not remove the mask while talking.

Do not leave your used mask anywhere.

Do not share your mask with others.

Wash your hands and use hand sanitizer regularly. Use your mask when traveling.

Practice Social Distancing

Exercise. Eat healthy food.

NB Sinha associated for 12 Years

Sales Personnel – Bihar (Retired)

I always feel pleased to be with KREPL, ever since I joined the organisation. My field experience & contributions made in the field of marketing were well recognised by the organisation, thus making me to work in different capacities during my career. KREPL being a techno-driven company has always been a centre of my interest from the core of my heart. Due to which, my technical knowledge kept on improving through the technical training sessions organised by the company on regular basis.

Ashok Kumar associated for 14 Years

Asst. Accounts – Bihar

Learning is a key to success, which is always a well-adopted success-mantra in KREPL. Being a part of accounting system & through continuous learning as imparted by the organisation, I grew to attain a height in my career never expected before. This helped me a lot to make contributions in a best way to the company affairs & assignments entrusted to me. I feel highly obliged for the care through Medical Insurance Schemes extended by the company during the odd hours of my life having total kidney failure. This could help me to recover fully, thus blessed with a second life. I give full credit to my lovely organisation. Long Live KREPL..

Jagarnath Rai associated for 12 Years

Sales Personnel – Bihar

My stay since last 13 years in KREPL has been a morale booster & very satisfactory. The supportive working environment of the organisation has given me an opportunity to learn & grow on continuous basis. Good quality products of varied nature have been a boon for the farmers & channel partners. Many of the products are having a high brand image in the market supporting high volume sales of the company. This gives me a proud-feeling of being associated with a company like KREPL.

ALSC DEALERS MEET AT YERCAUD (TAMILNADU)

The Dealer's meeting was conducted at Yercaud on 21.09.2021 & 22.09.2021 and in total there were 65 participants. The President Mr. Suresh Reddy has initiated the meeting by lighting the lamp and also invited the dealers individually with a rose.

Meeting was focused on our product Agro Power Gold and Joy Super, Details and technical information has been explained by Dr.Lokesh Singh, AGMA energy. Our honorable President Mr. P Suresh Reddy explained about other SLL/LL products including Agro Power and Joy Super. Mr. Reddy had explained about the market situation, our company strength, location of our factories and the upcoming products.

CONT. ALSC DEALERS MEET AT YERCAUD (TAMILNADU)

During this meeting, we have organized lucky draw for the dealers through which we could collect 40 tons of orders from the dealers. Once the lucky draw was conducted, we announced the lucky draw winners.

Special gifts and warm welcome were given to the dealers who supported us during the sprayer-man meeting which was held last month, by our honorable President.

Separate gifts were given to the top achievers of the previous year 2020-2021, by our President. Complimentary gifts were given to all the dealers who attended the meeting which led them to an unexpected surprise.

This event established a very close relationship with the dealers which promised to help us in our upcoming business.
