CONNECTING THE SOCIETY

BY ISHAN WADEKAR

In the month of February, there was an inauguration of a new police station near our manufacturing unit in Panoli. To commemorate this, our employees from the factory collaborated with the police department to organize a lunch for students at Panoli Sarvajanik School, which is a government school in a neighboring village. There were almost 100 students from class ninth and eighth.

The inauguration event was successful and all the students also enjoyed the meal.

यह मोबाईल एप खाद, किराना या पशु आहार जैसे छोटे खुदरा विक्रेता को भी बिना किसी पूंजी लागत के कमाई का मौका देता है। जहां दुकानदार अपने किसान के नाम से ऑर्डर लगा सकते हैं और किसानों को संकल्प रिटेल स्टोर के कीमत पर हीं घर तक ऑर्डर को पहुंचाई जाती है।

HOW DID UNION BUDGET 2023-24 AFFECT THE FARMERS/AGRICULTURE?

BY SHREYA JAIN

Every year on February 1st, the finance ministry led by Ms Nirmala Sitharaman, releases the union budget for the year which is a financial statement issued by the government which presents the estimated receipts and expenditures planned by the government in the for the upcoming financial year. This statement focuses on all the industries that are prevalent in the economy.

According to a recent summary by Bank Bazaar.com, there are following things to understand and look for in Union Budget 2023-24:

- An Agriculture Accelerator Fund is to be launched which will support Agristartups by young entrepreneurs.
- To emphasize on dairy, fisheries, and animal husbandry, the agricultural credit is to be raised to Rs.20 trillion.
- In an effort to increase the effectiveness of the value chain and broaden the market, a new sub-scheme of the PM Matsya Sampada Yojana will be introduced with a targeted investment of Rs. 6,000 crore. It will further facilitate the activities of fish vendors, fishermen, and micro- and small businesses.

HOW DID UNION BUDGET 2023-24 AFFECT THE FARMERS/AGRICULTURE? (CONTD.)

BY SHREYA JAIN

-The centre further plans to empower 10 million farmers by switching to natural farming.

-A sizable and decentralised storage capacity will be set up to assist farmers store their produce and obtain fair prices through timely sales.

-The development of a digital public infrastructure for agriculture as a connected, open-source, and open standard general welfare. This will make it possible to find solutions that benefit farmers as well as to improve access to farm inputs, market information, and assistance for agricultural start-ups.

-PM PRANAM will also be introduced to encourage states and union territories to use alternative fertilizers.

-A Rs. 2,516 crore investment was made to start computerising 63,000 Primary Agricultural Credit Societies (PACS).

-The Indian Institute of Millet Research, Hyderabad, will be supported as the Centre of Excellence for Sharing Best Practices, Research, and Technologies at the International Level in order to make India a global hub for "Shree Anna".

TEAM SPOTLIGHT

Mr Sanjay Sharma

Sanjay ji joined Agro Life Science Corporation in October 2022 as the Head Agronomist in the SND department. He brings with him a vivid experience of more than 15 years in the branding and product positioning domain, after starting his career with IFFCO. He has also worked with companies like ITS Limited, Deepak Fertilizers and

Petrochemicals Ltd and Reliance Industries Limited where he was the project lead. He completed his Bachelors in Agriculture and Masters in Horticulture.

He mentions how he appreciates the robust R&D of the company as well as the work culture at KREPL, where employees get their space and freedom to perform to the best of their abilities. He finds the top management very supportive, motivating and believes that employees are thriving under their leadership.

He believes we make a great difference when we let go of only caring about our personal growth and rather work as a team towards the common goal of the company. He says that one should be flexible to take multiple responsibilities as and when required in the organization.

Sanjay Ji currently resides in Noida with his wife and two sons.

We wish him a lasting career at KREPL which is full of growth!

TEAM SPOTLIGHT

Mr. Sunil Kumar Shrivastava

Sunil ji joined the SND department in November 2022 as the State Head & B2B Business Head in the ALSC Pune team.

He brings an experience of 22 years in B2B and marketing. He has completed his education in Post Graduate Diploma in Business Management. and has worked with companies like Jubliant. Sunil ji currently resides in Pune, Maharashtra with his family.

His experience in the company so far has been great! He enjoys the working environment and the support of his colleagues. Since the organisation's business in Pune is at an initial stage, he, along with his team of three others, are working towards promotional activities, centering it around branding. He looks forward to see the promotional inputs to the ground level, so that an improved channel partner and employee connection can be established.

KRISHAJ MOMENTS

Karu Singh Sisodia associated for 10 years **Area Manager - Madhya Pradesh**

I have been associated with Krishi Rasayan for more than 10 years and it has been an amazing journey. I have been able to witness and contribute to the incredible growth of Krishaj. It has been gratifying to be a part of a team that has consistently strived for excellence and delivered outstanding performance. I am proud that Krishi Rasayan has become one of the most respected names in the industry and I look forward to many more years of success.

Darshan Singh Rawat associated for 13 years **Chief Information Officer - New Delhi**

I joined this company in 2010 and have been treated as family here. The company has given me a lot of support to help me improve. I hope to see KREPL grow more and more with each passing year, and we work as a family, and I do my best to contribute to the company's goals.

Mohan Chauhan associated for 16 years **Sr. Accounts Executive - Madhya Pradesh**

I am working for the last 16 years with the KREPL family; this is a very good organization. Without support, we cannot travel this long journey. All seniors & staff have always guided me with any problem.

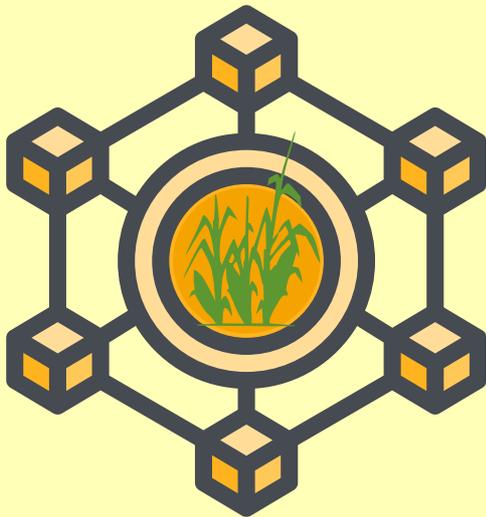

BLOCKCHAIN TECHNOLOGY & AGRICULTURE

BY SHREYA JAIN

Blockchain technology is a secure and transparent way of recording digital information, like transactions or data. The information is stored in blocks that are linked together in a chronological chain, creating a strong and secure ledger.

Block-chain technology has the potential to revolutionize the agriculture industry by providing a transparent and secure way to track the entire supply chain, from seed to sale. With block-chain, farmers can record data about their crops, such as soil conditions, fertilizers used, and harvest yields, which can then be shared with buyers and retailers. This can help ensure food safety and quality, as well as provide consumers with more information about the products they are purchasing.

- **Supply chain transparency:** In agriculture, blockchain could include tracking the origin of seeds, fertilizers, and pesticides, as well as the journey of crops from the farm to the end consumer.
- **Traceability and food safety:** By using blockchain to track the movement of food products, it is possible to identify the source of contamination quickly, which can help prevent foodborne illness outbreaks.

BLOCKCHAIN TECHNOLOGY & AGRICULTURE (CONTD.)

BY SHREYA JAIN

- **Smart contracts:** Blockchain technology can be used to create smart contracts that can automate many of the processes involved in agriculture, such as tracking the delivery of goods and making payments. This can help reduce costs and streamline the supply chain.
- **Agriculture financing:** Blockchain technology can be used to provide access to financing for small-scale farmers who may not have access to traditional banking services. This platform can help connect farmers with lenders, and enable them to access credit based on the track record of their farming activities.

Overall, the use of blockchain technology in agriculture can help increase efficiency, reduce costs, and improve transparency and trust in the supply chain.

CULTIVO RETAILER CONNECT BY GANVEER

Cultivo strives to connect with its channel partners on a regular basis. Concentrated regional meetings are organized frequently to make sure they are well aware of the current running schemes, what new products the company plans to launch and what kind of extra support will be provided to liquidate products.

A retailer meeting was organized in Chattisgarh keeping the above ideologies in mind. Retailers of Kawardha Market were invited to discuss our star product Agro Power Gold for usage in crops like paddy and sugarcane. Over 50+ retailers graced us with their presence. The overall response to the meeting was very well. They were very happy with the products and intended to work with us closely on promoting them.

CHAI PE CHARCHA BY CHHATTISGARH TEAM

Farmers are the backbone of our country and our company's end products users. It is very important to get their feedback and make sure they are aware of the new technological products we are launching.

Our Chattisgarh team has worked very hard on the ground to make sure they are approachable by our 'Kisan.' Many Mega Farmer meetings have been organized in association with Mr Kapil Kumar and Mr Debadrita Dutta Sir from AgMa, Spain at ground-level markets of Ambikapur. Our on-ground team comprising Surendra Ganveer and Suryakant Shukla interacted with more than 700 farmers to understand their product demand.

नए साल में किसानों के लिए एग्रो लाइफ की नई पेशकश एग्रो पावर एनर्जी

जैविक खेती में क्रांति लाएगा एग्रो पावर एनर्जी

जयपुर। नए साल 2023 में एग्रो लाइफ साइंस ने भूमि सुधार का बीड़ा उठाया है। कम्पनी ने किसानों के लिए एक अनोखा जैविक उर्वरक एग्रो पावर एनर्जी तैयार किया है। यह उर्वरक इण्डो माइक्रोराइजा और माइक्रोएलगी का मिश्रण है। यह उत्पाद भारत सरकार की जैविक प्रमाण देने वाली एजेंसी एफसीओ और इकोसर्ट द्वारा प्रमाणित है। एलगाएनर्जी के नेशनल सैलस मैनेजर कपिल कुमार ने बताया कि एग्रो लाइफ साइंस कापॉरेशन स्पेन की कम्पनी एलगाएनर्जी स्पेन के साथ संयुक्त उद्यम करके एग्रो पावर एनर्जी को किसानों के लिए विशेष रूप से तैयार किया गया है।

उन्होंने बताया कि एग्रो पावर एनर्जी में इण्डोमाइक्रोराइजा और माइक्रोएलगी का अनोखा मिश्रण है। इसका निर्माण यूपीटी तकनीक के द्वारा किया गया है। एग्रो पावर एनर्जी में इण्डोमाइक्रोराइजा के साथ प्रोटिन्स पॉलिस्कोरायड, माइक्रोन्यूट्रिएंट्स विमामिन्स तथा क्लोरोफिल भी उपलब्ध है। यह पौधों की जड़ों का विकास करता है। पौधे को पोषक तत्व प्रदान

करता है। जैविक खेती करने वाले किसानों के लिए एग्रो पावर एनर्जी एक अच्छा उत्पाद है।

कम्पनी के जोनल मैनेजर रविन्द्र पंवार ने बताया कि एग्रो पावर एनर्जी के प्रति किसानों का विश्वास तेजी से बढ़ रहा है। पिछले वर्ष कम्पनी ने 250 मीट्रिक टन एग्रो पावर एनर्जी किसानों तक पहुंचाया था। इस वर्ष का लक्ष्य 300 मीट्रिक टन है। कम्पनी की ग्रोथ भी शानदार रही है। पिछले साल कम्पनी ने 16 करोड़ का कारोबार किया था। इस साल का लक्ष्य 25 करोड़ है।

4 किलो और 8 किलो मात्रा

किसान भाई एग्रो पावर एनर्जी को 4 किलो और 8 किलो प्रति बीघा के हिसाब से काम में ले सकते हैं। जड़ वाली फसल और गन्ने में किसानों को 8 किलो प्रति बीघा का में लेना है। इसके अलावा सभी फसलों में 4 किलो प्रति बीघा पर्याप्त रहता है।

एग्रो पावर एनर्जी की विशेषता

- » जड़ों की सतह के क्षेत्र को बढ़ाता है।
- » पौधों की स्थापना और वृद्धि में सहायता करता है।
- » प्रकाश संश्लेषण गतिविधि में सुधार करता है।
- » पौधे अधिक मजबूत और स्वस्थ बनते हैं।
- » अजैविक दबावों के दौरान पौधों में सुधार करता है।
- » फूल और फल बढ़ाने में मदद करता है।
- » मृदा का पीएच बैलेंस सही रखता है।
- » मृदा की लवणता में सुधार करता है।
- » मिट्टी की गुणवत्ता और पोषक चक्र को बनाये रखता है।
- » फसल की गुणवत्ता और पैदावार को बढ़ाता है।

WORLD PULSES DAY

BY SHREYA JAIN

World pulses day is celebrated annually on February 10th. This day aims to raise awareness about the importance of pulses as a source of nutrition and sustainability for people around the world.

Pulses, also known as legumes, include crops such as chickpeas, lentils, beans, and peas. They are a low-fat source of protein, fiber, and complex carbohydrates, making them an important dietary staple in many countries. Pulses are also rich in vitamins and minerals, including iron, zinc, and folate.

WORLD PULSES DAY (CONTD.)

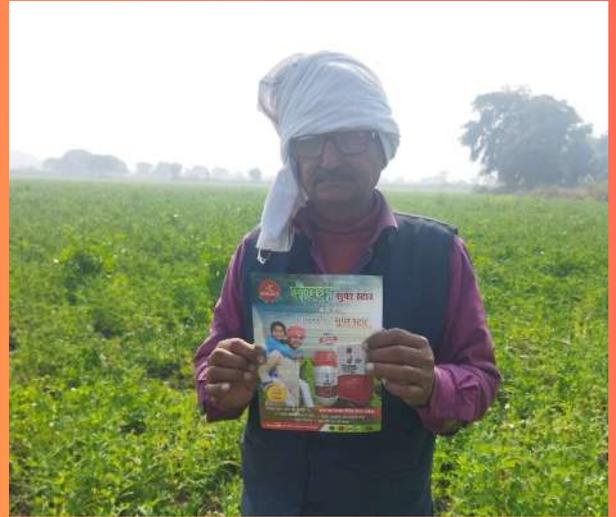

BY SHREYA JAIN

Pulses are eaten around the world in different forms. In India as we all know, we call the dish “dal” and eat it mostly with rice and chapatis on a daily basis. This is usually a staple diet here and is cooked in almost all households, almost every day. In Mexico, it is eaten as a filling of tacos etc. Pulses are also a great alternative for vegan people as they can be a very flexible and delicious source of nutrient to work with.

This crop also largely benefits many small farmers, especially in countries like India, Pakistan, Ethiopia and other South African countries. On World Pulses Day, we celebrate the nutritional, environmental, economic, and cultural significance of pulses. It is an opportunity to raise awareness about the benefits of this important crop and to encourage people around the world to include pulses in their diets. By doing so, we can improve our health, protect the environment, and support small farmers in developing countries.
